About Royal Selangor

Since 1885, Royal Selangor has been synonymous with innovation and quality. Our collection of more than a thousand designs is sold in over 20 countries around the world.

The majority of Royal Selangor products are hand cast and carefully detailed by skilled craftspeople. Our love and understanding of the metal are reflected in our collection as we continuously push the boundaries of convention with designs for the modern home. Among International awards won are the German Red Dot and Japan G-Mark.

Royal Selangor is proud to have been commissioned to produce trophies for prestigious events such as the Shanghai ATP Masters 1000 tennis tournament and the F1 Grand Prix races in Malaysia, Singapore and China.

Customised Designs

Renowned for outstanding craftsmanship and meticulous attention to detail, Royal Selangor's team of designers can help you celebrate a special occasion with an exclusive design or through customisation.

Logos, names and messages can be reproduced onto pewter through engraving. To create contrast, shading or staining is applied, enhancing their effect. Printing is also used to reproduce coloured images onto pewter.

Personalisation of your gift can also be achieved through customised packaging. Some options include specially designed printed boxes and velvet-lined wood presentation cases.

The grace and power of the horse are stunningly portrayed in this series of figurines. Crafted in pewter, each piece is meticulously hand finished to reveal the fine details and beautiful form.

Trophies often need to be differentiated to indicate placing and different categories. The versatile characteristics of pewter enables it to take on various tones and finishes. A wooden base can also be used to create different heights and sizes.
